RE: Game Development Internship Application

Dear Recruiter,

I am writing to express my strong interest in the Game Development Internship opportunity at Riot Games. With a solid foundation in computer engineering and a deep passion for game development, I am eager to contribute to the innovative work being done at your esteemed company.

My experience in object-oriented programming, proficiency in languages such as C++, C, Python, and JavaScript, as well as my familiarity with graphics libraries like OpenGL, position me well for this role. During my tenure at Goa College of Engineering, I completed a range of projects, including a comprehensive 2D game engine built from scratch using C++, SDL, and OpenGL. The source code and documentation to which is provided in my website, refer to attached resume.

I am particularly drawn to Riot Games because of your reputation for creating immersive and engaging gaming experiences. I admire your commitment to pushing the boundaries of the gaming industry and believe that the opportunity to intern with your team would be invaluable for my growth as a developer.

Thank you for considering my application. I look forward to the possibility of contributing to Riot Games' mission of delivering exceptional gaming experiences to players around the world. Please find my resume attached for your reference.

Sincerely,

**Divyam Redkar**
